

Task

We would like you to build out the supplied design for the Water and Energy Taskforce. This test is not meant to confuse or catch you out - if anything is unclear or you would like advice please ask.

Specifications

- › Please supply the site in .html / .php files, we do not require you to build this in Wordpress - this task is aimed at testing and evaluating your frontend skills.
- › The image slider should be functional if possible it can be bespoke coded or you can use a library such as slick slider.
- › The menu does not need to be functional.
- › Please submit via a file transfer or share your git repo with us.

Colours

- › Blue = #0a8aad
- › Green = #1ba653
- › Grey = #f2f2f2

Assets

We have supplied the required images and a collection of icons (in .png and .svg), feel free to use these or use your own.

Additional Information

We do not require you to follow the supplied site design exactly, feel free to change and adapt as you build. Any changes or additions should attempt to reflect the site style and design.
